

Energy Efficiency Policy

At La Blanche Resort, we consider energy efficiency as an integral part of our sustainability approach and are fully committed to fulfilling our environmental responsibilities at the highest level.

In line with the ISO 50001 Energy Management System standard, we commit to:

- ❖ The continuous improvement of our energy performance and energy management system,
- ❖ Full compliance with all applicable legal and other requirements related to energy use, efficiency, and consumption,
 - ❖ The provision of necessary information and resources to achieve our energy objectives and targets,
- ❖ The consideration of energy efficiency in the design and procurement of facilities, equipment, and services.

We support our energy management system through efficient technologies, employee engagement, and ongoing training, increasing energy awareness across all departments. We regularly monitor, assess, and improve our energy performance through innovative solutions.

This policy is implemented, maintained, and clearly communicated with the full support of our top management. Our goal is to offer an energy-conscious guest experience while building a sustainable future as an environmentally responsible establishment.

Genel Müdür Yardımcısı
