

## Procurement Policy

At La Blanche Resort, we are committed to protecting the environment, using natural resources efficiently, and building our procurement processes on the foundations of quality, energy efficiency, and sustainability in line with the principles of sustainable tourism.

Within this scope, in our procurement activities we:

- **Quality and compliance:** Ensure that all products and services comply with national and international standards, legal regulations, and our internal quality criteria, and we regularly evaluate supplier performance.
- **Local and sustainable production:** Whenever possible, we source from local producers to support the regional economy and reduce the environmental impact of our supply chain.
- **Energy efficiency and eco-friendly products:** We prioritize products that consume less energy, are recyclable, durable, and environmentally friendly. When selecting energy-related equipment, we consider energy performance in line with **ISO 50001**.
- **Life cycle approach:** We evaluate not only the initial purchase cost of products but also the energy, maintenance, and waste costs that may occur throughout their entire life cycle.
- **Sustainable supplier relations:** We encourage our suppliers to adopt environmental awareness, ethical business practices, respect for employee rights, and social responsibility, and we strive to enhance sustainability awareness together.
- **Feedback and improvement:** We handle dissatisfaction or complaints arising from our procurement processes within the framework of **ISO 10002**, and continuously improve our processes.
- **Legal and environmental responsibility:** We ensure full compliance with all applicable legal requirements and the environmental and energy management standards (**ISO 14001 and ISO 50001**) in all procurement activities.

Through this policy, we integrate quality, environment, energy, and guest satisfaction into every stage of our procurement processes, strengthening our vision of being a sustainable business that adds value to the future.
